PROFILE

Developer with 5+ years of hands-on experience building web applications. Main focus is frontend with React, Vue.js, and TypeScript, plus practical backend work with Node.js and Blazor. Work history includes education, logistics, retail, and tourism products in Iran.

WORK EXPERIENCE

Frontend Team Lead — Tipax

Aug 2025 — Aug 2026

Representatives Management Panel · Mashhad, Iran

- Worked on the Tipax representatives management panel with React, TypeScript, and Material UI.
- Helped define reusable components and state management patterns for the frontend team.

Tech: React · TypeScript · Material UI

Senior Frontend Developer — Tosan Techno

Mar 2025 — Aug 2026

Refah Barcode Scanner App · Mashhad, Iran

- Developed frontend screens for a barcode scanner application used in Refah retail stores.
- Worked on real-time communication between scanners, POS devices, and payment systems.

Tech: React · WebSocket · Real-time

Frontend Developer — 3click (Deltaban)

Mar 2024 — Jun 2025

B2C Platform · Mashhad, Iran

- Built and maintained web apps with Vue.js and Nuxt.
- Took part in migrating from Nuxt 2 to Nuxt 3 and improving performance and SEO.

Tech: Vue.js · Nuxt 2/3 · SEO · Performance

Full-Stack Developer — TopTours

Feb 2023 — Feb 2024

Custom CMS Platform · Mashhad, Iran

- Built a drag-and-drop frontend builder interface with React.
- Connected the builder UI with a Blazor Server admin panel and backend services.

Tech: React · Blazor Server · Drag & Drop

WORK EXPERIENCE

- Frontend Developer — Kanoon Ghalamchi**

Sep 2022 — Apr 2023

Educational Platform · Mashhad, Iran

 - Worked on the school website and management panel with React.
 - Improved UI flows and integration with backend APIs.

Tech: React · REST API
- Frontend Developer — Mabna Intelligent Computing**

Mar 2021 — Jul 2022

Amirkabir University · Mashhad, Iran

 - Developed React apps for transportation and petrochemical use cases.
 - Implemented a multi-format file uploader with preview (images, PDF, Word).

Tech: React · File Upload · PDF Preview

SELECTED PROJECTS

- Orbit Task Platform — GitHub**

Team project and task management backend with JWT authentication, Redis caching, Swagger docs, and Docker Compose.

Tech: Node.js · JWT · Redis · Swagger · Docker Compose
- Angular Smart Table Pro — GitHub**

Angular data table library with virtual scroll, server-side datasource support, drag-and-drop, and Excel export.

Tech: Angular · Virtual Scroll · Excel Export · Drag & Drop
- ConfigKit — GitHub**

Type-safe Go configuration library for JSON, YAML, TOML, and ENV with hot reload and validation.

Tech: Go · JSON · YAML · TOML · ENV · Hot Reload
- Job Crawler Suite — GitHub**

Python toolkit for crawling job listings from multiple Iranian job platforms and exporting results to Excel.

Tech: Python · Web Scraping · Excel Export
